

# Ken Stanski

## Why I love working with WorldStrides Canada

The people I get to work with at WorldStrides Canada—they make the experience amazing! Also, I love the value that they provide for our students.

## A snapshot of my teaching and student travel career

I have taught all levels of education for 32 years, from kindergarten to adult education. My teaching career includes teaching high school for 12 years, junior high school for 14 years, and elementary school for six years. I've also been a school administrator for eight years. In terms of my student travel career, I have been travelling with students for six years.

## My favourite hobbies

I love to read, ski, and spend time at my cabin. My latest passion is my new car, a Honda CRV.

## A WorldStrides Canada trip to remember

Visiting Vimy Ridge on April 9, 2017, the 100th anniversary of the battle. The number of people, the incredible weather, and the importance of the event in Canadian history was very memorable. Not enough Canadian students get to go to Vimy Ridge and I believe all Canadian high school students should go there and experience it.

## What inspires me to organize educational tours

To give students an experience they will never forget. I want to be the one person who shows them the possibilities in the world of travel!

## Why I can help you lead a successful educational tour

I'm very organized and ready for any kind of fun!

## My all-time favourite travel story

Visiting Rome with my family for the first time. Seeing and walking among the ruins, having fresh amazing Italian food, and walking the Colosseum was an amazing experience.

### Location

Edmonton, Alberta

### Language

English

### Commonly used travel provider

Explorica

### My favourite subjects & interests

European and Military History

### My bucket list travel destinations

St. Petersburg and Moscow

### My favourite international food

French pastries

### My favourite travel destinations

London and Paris
